(\*) Provisional Figures

The Covid-19 restrictions had a negative impact on our traffic data for the month of March and for the entire quarter overall. While the effect and impact that the travel restrictions will have on traffic levels going forward is not wholly determinable, we expect that the current travel restrictions will continue to negatively affect the Company's traffic data for subsequent reporting periods (including the six-month period ending on June 30, 2020) to the extent such restrictions remain in place.

Please note that such traffic information may not be indicative of the full year period and that the Company has no duty nor any obligation to update the information nor to continue providing monthly reporting.
