**(iii) Level of Tariffs**

On 12 October 2022, the Company applied to the Grantor CAL S.p.A. for a tariff adjustment for the year 2023. The request was made with reference to the updated Economic and Financial Plan submitted to the Grantor on 9 June 2022, which provides for an annual 5.61% tariff variation from 2023 to 2026 and a 4.49% variation in the following years.

The Company also specified that, should the procedure for updating the Economic and Financial Plan not be completed in time for the tariff adjustment, such adjustment would necessarily have to be ensured, for the year 2023, on the basis of the current concession Economic and Financial Plan determined according to the usual revision formula:

$$\Delta T: \Delta P - X + K = 4.3\% - (-2.990\%) + 0.000\% = +7.29\%.$$

The so-called "Decreto Milleproroghe" of 29 December 2022, meanwhile, established also for 2023 that the deadline for the adjustment of motorway tariffs relating to the years 2020 and 2021 and those relating to all the years included in the new regulatory period was postponed until the definition of the procedure for updating the economic-financial plans prepared in accordance with the resolutions adopted pursuant to Article 16, paragraph 1, of Decree-Law No. 109 of 2018, by the Transport Regulatory Authority.

In a note dated 4 January 2023, the Ministry of Infrastructure and Transport communicated that the conditions for a tariff adjustment as of 1 January 2023 were not met for the company Brebemi SpA, without prejudice, pursuant to the reference regulation, to the possibility to recovery of any tariff adjustments applying as of the start of the current regulatory period.

On 21 February 2023, the Company filed an appeal against these provisions with the Regional Administrative Court of Lazio, deeming them detrimental to Brebemi's interests and rights. A hearing on the merits of the appeal is yet to be held.

**(xiv) Principal Amount Outstanding as at the End of the Relevant Period**

The table below is a summary of the Principal Amount Outstanding of each of the Class A1 Notes, the Class A2 Notes, the Class A3 Notes, the Senior Secured Loan, and the Junior Notes as at the end of the Relevant Period:

Account	Principal Amount Outstanding (in Euro) as of December 31, 2022
<b>Class A1 Notes</b>	14,499,003
<b>Class A2 Notes</b>	902,804,602
<b>Class A3 Notes</b>	630,016,708
<b>Senior Secured Loan</b>	284,435,500
<b>Junior Notes</b>	189,267,393

**(xv) Junior Notes Interest and Principal paid**

For the period from (and including) the Issue Date to (and including) the last day of the Relevant Period, the Issuer paid Euro 7,671,141.36 of interest and repaid Euro

5,253,844 of principal amount in respect of the Junior Notes corresponding to interest and principal due on 31 December 2019 and 30 June 2020.

With respect of the Junior Notes, as a result of the application of the Restricted Payment Condition, at the Interest Payment Date of 31 December 2022, the Issuer did not pay the relevant Interest Amount, equal to Euro 6,305,890.39 and the related Principal Amount, equal to Euro 5,259,185.00.

This is because the Issuer elected to exercise its option to capitalize the relevant PIK Interest Amount in accordance with the Finance Documents.

As of 31 December 2022, the Principal Amount Outstanding of the Junior Notes is equal to Euro 189,267,393.90.

The Interests Amount unpaid on 31 December 2022, equal to Euro 5,808,484.78, have been capitalized with effect from 1 January 2023.

**(xvi) PEF Rebalancing**

During 2021 the regulatory concession period expired. Pending the formal commencement of the updating and rebalancing procedure, as governed by Art. 11.7 of the Concession Agreement, the Issuer started, with the support of external advisors, all the preparatory and functional activities for the negotiations with the Grantor of the proposal to rebalance the economic and financial plan.

On 1 April 2021, the negotiations with the Grantor started and the necessary documentation was exchanged. During the following months, several meetings were held with the Grantor with the aim of defining a shared proposal for an economic and financial plan.

Given the position taken by the Grantor and not shared by the Issuer with regard to some parameters of the new economic and financial plan, the most relevant of which concern the rate of fair return on invested capital, on 23 December 2021 a formal rebalancing proposal was sent in line with the new provisions laid down by ART on tolls. The proposed economic and financial plan was mainly based on an extension of the duration of the concession and included a new traffic study updated in light of the new macroeconomic environment. The Issuer's proposal was rejected by the Grantor with measure dated 31 January 2022.

Subsequently the parties met to try to find a shared solution and, in March 2022, the Grantor and the Issuer reached a general agreement on the various rebalancing items.

Considering also that the finalization of a possible agreement to be submitted to the respective corporate bodies and to the financial parties would have required timeframes such as to entail exceeding the deadline within which to challenge the

Grantor's measure of 31 January 2022, the Issuer, as a precautionary measure, started the litigation by 4 April 2022. The decision of the Grantor, which contains unsupported assumptions, was therefore referred to the Civil Court of Brescia as part of the case brought on 4 April 2022.

In the meantime, discussions continued with the Grantor in order to formalise and finalise the shared proposal for an economic and financial plan complying with the new toll provisions set forth in ART Resolution 87/2021.

On 9 June 2022 Brebemi agreed with the Grantor on a new economic and financial plan together with the draft of Addendum no. 4 to the Concession Agreement. Similarly to the economic and financial plan presented on 23 December 2021, the new economic and financial plan also envisages, as the main rebalancing measure, the extension of the duration of the concession by seven years and also provides for the adjustment of the final indemnity to be paid to the outgoing concessionaire. The agreement acknowledges and is without prejudice to the appeals filed by Brebemi against ART resolution 87/2021 and also provides for the recovery of the lower revenues recorded in 2020 as a result of Covid-19.

The agreement was submitted to the Board of Directors of Brebemi for approval on 22 June 2022. The assumptions underlying the rebalancing plan as well as the extension of the duration of the concession were also submitted to the lenders for approval according to the procedures set forth in the financial documentation. On 29 July 2022, the Board of Directors of the Grantor approved the update of the Economic and Financial Plan and the same, together with the draft of Addendum no. 4, was sent to the Ministry of Infrastructure and Sustainable Mobility, for the relevant follow-up.

Subsequently, the Company constantly urged the Grantor to take all steps with the central administrations to swiftly finalise the approval process. Following a specific request for information, Brebemi learned from CAL at the end of November 2022 that:

- i) MIMS forwarded the 2022 Economic and Financial Plan and Draft Addendum No. 4 to ART, for the purpose of the issuance by the Authority of its relevant opinion;
- ii) the said transmission was acknowledged by ART on 29 September 2022, with a note sent to CAL, in which the same ART gave notice of the suspension of the procedure for the issuance of its opinion and requested clarifications from CAL regarding the extension of the duration of the concession;
- iii) the clarifications provided by CAL were not deemed sufficient by ART, which, in late November and early December, requested further information directly from the National Anti-Corruption Authority ('ANAC'), once again suspending the procedure.

In order to obtain an adequate picture of the actual timeframe for the conclusion of the 2022 Economic and Financial Plan approval procedure, Brebemi:

- i) by letter dated 30 November 2022, pointed out to CAL the arbitrariness and illegitimacy of ART's initiative and asked for the exhibition of its correspondence with ART, in order to assess its contents;
- ii) by letter dated 7 December 2022, requested CAL to access the records of the rebalancing procedure and invited CAL to take action with the Central Administrations to ensure the timing of the 2022 Economic and Financial Plan rebalancing procedure.

Finally, in a note dated 23 February 2023, the grantor CAL sent Brebemi:

- i) the note sent by ART to CAL on 27 January 2023, in which the Authority represented:
  - a. the still ongoing interlocution between ART and ANAC, without, however, revealing its contents;
  - b. the request to make significant changes to the Economic and Financial Plan agreed between CAL and Brebemi, without however giving the reasons for this;
  - c. the convocation of CAL to a hearing on 7 February 2023.
- ii) The note sent by ART to CAL on 23 February 2023 in which, following the hearing on 7 February, ART:
  - a. pointed out to CAL the need for the Grantor itself to agree with the Concession Holder on amendments and additions to the Economic and Financial Plan under review, particularly with regard to the determination of the final indemnity and the balance of Poste Figurative;  
reserved the right to make further assessment in the course of the verification and in-depth analysis of the documents received and the requests for integration, also renewing the invitation to ANAC to give the opinions within its remit.
  - b. the requests for integration, also renewing the invitation to ANAC to give the opinions within its remit.

On 1 March 2023, a meeting was held between CAL and the Company, during which the Grantor illustrated to Brebemi its assessments, later formalised in a letter dated 7 March 2023, regarding the feasibility of possible solutions to rebalance the economic and financial plan in compliance with the observations made by ART. Assessments are currently being carried out by the Company and its consultants in order to verify that the proposed solutions: (i) do not alter the economic and financial balance and

regulatory conditions underpinning the agreement of 9 June 2022 and (ii) are consistent with the commitments undertaken in the financial documentation

**(xvii) Credit Rating**

On 13 June 2022, DBRS Morningstar downgraded Brebemi's Issuer Rating as well as the ratings on its Senior Secured Loan, Class A1 Notes, Class A2 Notes, and Class A3 Notes to "BB (high)" from "BBB (low)". DBRS Morningstar also changed the Trend on all ratings to "Stable" from "Negative".

On 28 October 2022, Fitch Ratings has revised the Outlook on Società di Progetto Brebemi S.p.A.'s Senior Secured notes to "Negative" from "Stable" and confirmed the rating at "BB+".

Traffico e Sicurezza

## In Breve

Esaminando i dati di preconsuntivo relativi al trascorso novembre, si possono rilevare – così come avvenuto nel precedente mese di ottobre – valori di traffico sostanzialmente in linea rispetto a quelli registrati nell'analogo mese dell'esercizio precedente, con un lieve incremento stimato in un punto percentuale.

Più nel dettaglio, ciò è il risultato di un aumento della componente veicolare leggera (+1,9%) contrapposto ad una leggera diminuzione relativa alla componente pesante (-1,1%). In termini assoluti, il numero di veicoli-km percorsi sulla rete autostradale a pedaggio in questi undici mesi ha abbondantemente superato i 77 miliardi di veicoli/km, con un bilancio positivo di 11,3 punti percentuale se

paragonato alle percorrenze avvenute nel medesimo arco temporale del 2021. Si ricorda che non viene più effettuato il confronto con i dati di annualità ulteriormente precedenti in quanto l'andamento del traffico risulta ormai sufficientemente conforme ai livelli pre-pandemia, residuando solo lungo alcune tratte autostradali una minima differenza percentuale che si va assottigliando di mese in mese.

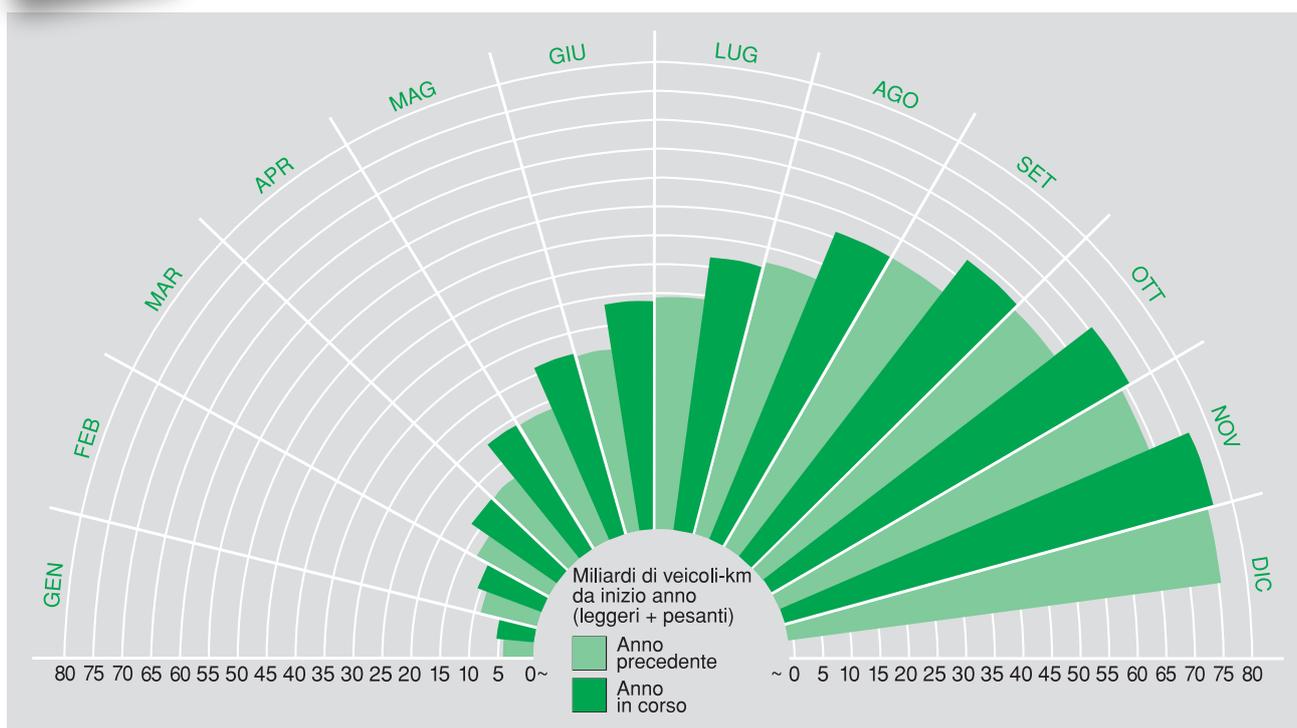

Per quanto concerne l'esame dei dati attinenti alla sicurezza stradale, nonostante la stazionarietà del dato relativo ai flussi di traffico sopra descritto, si è comunque assistito ad una favorevole diminuzione per quanto concerne sia il tasso relativo

al numero incidenti complessivi (-24,1%) sia quello concernente il numero di feriti in essi coinvolti (-17,7%).

D'altra parte, assistiamo ad un aumento della gravità degli eventi stessi, fotografato dall'innalzamento del tasso di mortalità, che occorre comunque ridimensionare se si presta attenzione ai valori assoluti, i quali mostrano evidenze non elevate ed in linea con quelle di altri periodi connotati da analoghi flussi veicolari; bisogna sempre ricordare infatti come le percentuali di tasso, per quanto elevate in apparenza, siano derivate dalla esiguità dei numeri in esame.
